Part III Reading Comprehension

Direction: Each of the passages below is followed by some questions. For each question four answers are given. Read the passages carefully and choose the best answer to each question. Put your choice in the Answer Sheet. (15 points)

Passage One

Grandma Moses is among the most celebrated twentieth-century painters of the United States, yet she had barely started painting before she was in her late seventies. As she once said of herself: "I would never sit back in a rocking chair, waiting for someone to help me." No one could have had a more productive old age.

She was born Anna Mary Robertson on a farm in New York State, one of five boys and five girls. ("We came in bunches, like radishes.") At twelve she left home and was in domestic service until, at twenty-seven, she married Thomas Moses, the hired hand of one of her employers. They farmed most of their lives, first in Virginia and then in New York State, at Eagle Bridge. She had ten children, of whom five survived; her husband died in 1927.

Grandma Moses painted a little as a child and made embroidery pictures as a hobby, but only switched to oils in old age because her hands had become too stiff to sew and she wanted to keep busy and pass the time. Her pictures were first sold at the local drugstore and at a fair, and were soon spotted by a dealer who bought everything she painted. Three of the pictures were exhibited in the Museum of Modern Art, and in 1940 she had her first exhibition in New York. Between the 1930's and her death she produced some 2,000 pictures: detailed and lively portrayals of the rural life she had known for so long, with a marvelous sense of color and form. "I think real hard till I think of something real pretty, and then I paint it," she said.

Why not have a special day set aside for planting trees? So Arbor Day was born, and on April 10, 1872, the first Arbor Day was celebrated. Passage Three

Artificial flowers are used for scientific as well as for decorative purposes. They are made from a variety of materials, such as wax and glass, so skillfully that they can scarcely be distinguished from natural flowers. In making such models, painstaking skill and artistry are called for, as well as thorough knowledge of plant structure. The collection of glass flowers in the Botanical Museum of Harvard University is the most famous in North America and is widely known throughout the scientific world. In all, there are several thousand models in colored glass, the work of two artist-naturalists, Leopold Blaschka and his son Rudolph.

The intention was to have the collection represent at least one member of each flower family native to the United States. Although it was never completed, it contains more than seven hundred species representing 164 families of flowering plants, a group of fruits showing the effect of fungus diseases, and thousands of flower parts and magnified details. Every detail of these is accurately reproduced in color and structure. The models are kept in locked cases as they are too valuable and fragile for classroom use.

和平与发展是时代的主题

和平与发展是时代的主题。世界各国人民应携手合作，继续推进人类和平与发展的崇高事业。

和平的环境，是一个国家、一个地区以至全球发展的重要前提。没有和平，没有稳定的政治局面，就谈不上经济发展。历史和现实都充分说明了这一点。

当今世界，国际局势总体上趋向缓和，但各种因素引发的冲突甚至局部战争此起彼伏，

一些地区的紧张态势依然存在，妨碍了有关国家和地区的经济发展，也对世界经济产生了不利影响。一切负责任的政治家和政府，都应该遵守《联合国宪章》的宗旨和公认的国际关系基本准则，为实现普遍、持久、全面的和平而努力，而不能违背各国人民的利益去人为地挑起紧张态势，甚至制造武力冲突。
